

# Top-of-the-World Diagnostic Mentoring Solutions

Today's business world is uncertain and complex. For personal peak performance and superior business outcomes, people need a working environment that is free from interfering viruses, where they can fully unlock their talents, and address higher challenges.

**We help people and organisations perform at their peak when challenges rise.**

Certified Mentors work with our Systems Approach to help you and your team develop people-centric, agile, and dynamic capabilities for peak performance in your organisation: Digital, data-driven, fast.

Our Systems Approach combines the Diagnostic Toolbox with our Leadership Model and Visual Design Thinking. Find out how this works with the **free AGILE SCAN**: <https://agilityinsights.net/free-agile-scan>

## Results

- Diagnostic data for deep insights
- High awareness, shared understanding
- Identified issues and action plan
- Mentoring for fast learning

## Outcomes

- Ability to compete in VUCA contexts
- People-centric, agile, and dynamic capabilities
- Higher speed, agility, and resilience
- Superior performance, innovation and growth

How people-centric, agile, and dynamic is your organisation? What can you do?

## Four solutions offer answers:

### MY FLOW SCAN

#### «Peak performance» | personal diagnostic and mentoring

Certified Mentors help you identify your potential and assess the interferences that keep you from performing at your best and reach flow more often, be it as a leader, a professional, at work, with sports or the arts.

### EXECUTIVE INSIGHTS

#### «Identify what it takes» | For leaders and experts

Certified Mentors help you, your team, and your organisation to make the shift to agile and people-centric by exploring current capabilities, creating a roadmap that works for you and providing development guidance that remove interferences and ensure you reach top maturity and performance levels.

### TEAM FITNESS

#### «Get ready for the shift» | For leadership and work teams

Certified Mentors help you and your team to get ready for new challenges by measuring your organisation's agile maturity for clarity on the baseline, by supporting your decision on the desired maturity target, and by distilling the key issues to exploit the people-centric potential.

### ORGANISATION SHIFT

#### «Crossing the Rubicon» | For entire institutions

Certified Mentors help you, your team, and your organisation to make the shift to agile and people-centric by exploring current capabilities, creating a roadmap that works for you and providing development guidance that remove interferences and ensure you reach top maturity and performance levels.

## More about the...

free  
**AGILE SCAN**

Our free AGILE SCAN helps you determine your organisation's current agile maturity and organisational interferences to superior performance.

Access the AGILE SCAN through our website, register, and invest 5 minutes to answer the questions.

### AGILE SCAN

This highly automated AGILE SCAN Diagnostic with 22 online questions takes 5 minutes to complete.

Diagnostic with 22 elements, Expert Web Briefing  
Performance Triangle

### Mentoring

A certified Mentor guides you through your diagnostic results with a 45-minutes online feedback meeting and offers practical expert insights with action items.

### Toolbox

The 20-pages AGILE SCAN result report scores people elements, leadership, culture, systems, collaboration, purpose and relationships, and how these elements combine to determine your organisation's speed, agility and resilience. It includes:

- **The AGILE SCORE:** The reference point for your organisation's Agile Maturity
- **Benchmarks:** How your organisation compares with other peers and industries
- **Dynamic capabilities:** How they impact your organisation's competitive advantage
- **Culture, leadership and systems:** How they enable speed, agility and resilience
- **Management context:** Options on how to align management and organisation
- **Management models:** Options on how to build people-centric, agile, and dynamic capabilities
